Yes, that makes total sense. Thank you! I have passed this info on to the other ADAs that practice in Northampton District too so they are aware as well.

If the total net wt of MJ was over an ounce of the submissions collectively, I report the individual net wts of each submission on their respective certificates. So if you see any net weight listed on a certificate for MJ, the total of all the submissions for the same suspect/defendant would be over an ounce. I hope that makes sense.

Sonja,

Thank you! I appreciate you getting back to me so quickly!

As a follow-up, based on your prior email, is it fair to say that when you receive multiple MJ samples with a single suspect/defendant name, you would not only weigh each separately, but if it was OVER an ounce collectively, you would somehow provide that info to us? I guess I'm wondering in such cases how we would ever know if it was over an ounce collectively?

Thanks!

Jen

Jen-

I just double checked and the net weights for the four submission is indeed under 1 ounce:

[REDACTED] gross wt. 1pb = 16.02g
gross wt. 1pb = 0.83g
gross wt. 4pbs = 2.53g
gross wt. 1 cigar = 0.94g

Total gross wt = 20.32g

1 ounce = 28.35g

Subject: Lab Nos. [REDACTED]
Hi Sonja,

I have this case on early next week for a motion to dismiss. You tested several bags of MJ with 4 different drug certs, all of which weighed under an ounce. However, I need to know if, collectively, the drugs for the 4 certs weighed OVER an ounce. Could you provide this info to me either by email or by faxing (413.584.3635) the lab notes with the weights to me so I can do the math myself? Any help would be greatly appreciated!

Thank you!
Jen
